Once logged on click on "College Readiness" in the Navigation Menu, then Click "ACT" on the popup menu.

**ACT Programs**

**ACT**

Study Island has partnered with Tutor Associates, a well-known one-on-one tutoring company, to bring you a fun, easy-to-use ACT review program. The Quantitative program helps you master both mathematics problems and science problems on the ACT. The Verbal program includes practice for both the Critical Reading and Writing sections of the ACT. The practice exams allow you to put your new skills to work and estimate your score.
