

ACT INTENSIVE PREPARATION COURSE - offered at Blue Springs High School in preparation for the December 10, 2005 ACT test

This **15-hour** course will present an **in-depth** review of the ACT to increase test comfort and acquaintance level and reduce test anxiety. **Enrollment is** limited (20 students) to provide a better teacher-student rapport and improve the overall success of the course.

The four main sections of the test will be covered - English, Math, Reading, and Science - with a three-fold format of content instruction, strategy techniques and practice test taking. Tests will be scored and analyzed to increase student ability and confidence. Types of problems will be emphasized to encourage students to recognize and answer questions quickly and accurately. A final timed three-hour ACT test will be given in class and will be analyzed in the last class period. For more information, please call Nancy Donaldson at **554-2875**.
